

N Laxmi Nandhan Rao

9392851715 | nandhanrao99@gmail.com | [linkedin](#) | [github](#) | [leetcode](#) | [portfolio](#)

EDUCATION

Sreenidhi Institute of Science and Technology

Bachelor of Technology — Electronics and Computer Engineering — CGPA: 8.5

Hyderabad, Telangana

Nov 2022 – Apr 2026

EXPERIENCE

AI Research Intern

Alpes AI

April 2025 – August 2025

Hyderabad, India

- Engineered a scalable 4-stage data ingestion and retrieval pipeline on 2,000+ legal documents - ingestion, OpenAI embedding generation, vector indexing, and ranked retrieval.
- Contributed similarity scoring logic to a video frame analysis pipeline, improved accuracy by 12%.

PROJECTS

LeetCode Assistant | *React.js, Flask, MongoDB, JWT Auth, Docker, Kubernetes*

[link](#)

- Engineered a data ingestion layer wrapping LeetCode's GraphQL API to extract, normalize, and store structured data into MongoDB.
- Built aggregation pipelines to surface MNC-specific question patterns and progress.
- Deployed and self-hosted the application on a Linux VM, managing the server setup and application runtime.

SHESAFE: AI-Driven Surveillance System | *Python (OpenCV, SMTP), KNN, MoViNet*

[link](#)

- Engineered a video anomaly detection system using deep learning to identify incidents like abuse, kidnapping, achieving 90% accuracy using MoViNet.
- Automated the full detection-to-alert workflow using OpenCV for frame processing, KNN for threat classification, and SMTP for instant notifications

Multi Agent Collaborative System | *Python, LangGraph, PostgreSQL*

[link](#)

- Orchestrated multi-agent communication using LangGraph's stateful graph architecture, enabling parallel task execution and reducing evaluation latency
- Designed relational schema and persisted agent state history to PostgreSQL with concurrency-safe writes.

SKILLS

Languages: C++, Python, SQL

Web Development: React.js, Flask, FastAPI, GraphQL

Databases: MongoDB, MySQL, PostgreSQL

Cloud & DevOps: Docker, AWS, GitHub Actions (CI/CD), Linux, Kubernetes, Jenkins, Terraform

Tools: Git, Postman

LEADERSHIP EXPERIENCE

Lead - Cloud Community Club

- Contributed to a tech community of 150+ members through workshops and bootcamps focused on Scripting, Deployment, AWS.

Vice President - Alumni Cell

- Organized alumni networking events and automated LinkedIn profile discovery with scraping and automation, building a structured contact directory.

ACHIEVEMENTS

- 3× National-Level Hackathon Winner** (VNR-VJ, HACK-ARENA, HACKTIVATE)
- LeetCode Top 8% Globally - 1775 rating, 550+ problems solved (SQL and algorithmic fundamentals)**
